Merrick House Bargaining Committee Report June 9, 2010

Negotiations continued this morning at Merrick House and after discussion and deliberation, we are able to report that we are making significant headway toward reaching a tentative agreement that we can present to you for ratification.

Although we have the daunting task of reviewing and negotiating the economic issues which include time off and wages, we feel that the progress made to date is encouraging.

We will provide details as soon as possible. Support your Bargaining Committee in their efforts to bring to you a fair and equitable contract.

The next bargaining session is scheduled for Monday June 14th.

This and future reports will appear on our website at www.cwa4340.org and your representatives can be reached by phone at 216-635-4340 on via email at mobilize4340@aol.com.
